

Pet Health Club Savings Guide

Cost of Treatment / Value of Discount*

Year 1

The Pet Health Club isn't just about saving money - but it's good to know that you're protecting your pocket as well as your pet!

We don't go in for fancy, inflated claims showing maximum savings as a headline figure so we've just listed the **minimum likely savings** - based on the average prices of over 450 Pet Health Club practices across the UK.

But remember, if you are regularly buying food, supplements or long term medicine you may well be saving double the amount stated...
